

## **Health and Safety Policy**

**March 2007**

## **1. Introduction**

Red Lemon Training Concepts Health and Safety Policy is based upon our core principle of ensuring that all clients are able to access our training solutions within a healthy and safe working environment.

## **2. Health and Safety commitment**

Red Lemon Training Concepts endeavour to ensure that :-

- All clients are aware of the appropriate Health and Safety procedures which are 'venue dependent' - i.e. Fire Evacuation procedures, First Aid facilities
- All training / support is delivered in an appropriate venue / location / environment at the discretion of the Red Lemon Team member
- All training is delivered in adherence to all Red Lemon Concepts Policies
- Red Lemon Training Concepts operate within all current legal legislation and are willing to signpost to the relevant sources of documentation

All of the above will be managed, monitored and reviewed by the Director of Training and Development and the three Directors of Red Lemon Training Concepts.

## **3. Health and Safety Appeals Procedure:**

In the event of a Health and Safety concern, the Red Lemon representative on site must be informed and the most appropriate action will be taken. If this course of action is deemed inappropriate by the client, the Red Lemon Training Concepts Appeals Procedure must be implemented.
